

18.019

I write to make a submission to the Local Election Boundary Commission regarding the Terenure area.

The changes made by the last Boundary Commission, in the context of Terenure, have in my view been very successful. I would wish to see them retained.

Prior, to the last boundary change, Terenure village was split down the Main Street into two different electoral areas. This meant that we were at the periphery of two local Area Offices and had different public representatives. The village and the community have benefitted very much by being a single unit. Business is doing well in the village and the local Residents Associations can join together on projects in the interest of the whole community. We are also together for the purpose of Neighbourhood Watch general meetings.

I submit that the present boundaries should be retained.

Yours sincerely
Edith Wynne
