

Good afternoon

Having worked hard, paid my taxes, and paid a big mortgage over the years in Lucan, I strongly object to the area called Balgaddy being classified as Lucan. As you are aware Balgaddy is an area linked with drugs and shootings and has a high rate of unemployment. It is located beside Ronanstown Garda Station which is clearly Dublin 22. The effect of this area being linked to Lucan is that are house prices will be affected and our reputation as a "nice place to live" will be ruined.

We can only thank underhand ruthless developers and local politicians for this scenario and I strongly request that the boundaries be reviewed as soon as possible.

I love living in Lucan but if things get any worse, which undoubtedly they will, people like myself will have no choice but to relocate.

I look forward to your comments.

Marion O'Shea
