On the upcoming review of North Cork local electoral area boundary I would submit that in relation to Charleville Town that is Vital that the Parish of Ballyhea and Newtown be together with Charleville in upcoming boundary.

This should include Townslands Imphrick, Springfort and Ardskeagh. These parishes and townlands form a natural fit in relation to Cork County Council and effective representation through Local Government.

To date this area is on the Fermoy Municipal District and has been very effective in achieving good cooperation by Local Government in terms of work done. It is now suggested that Charleville should go to Kanturk Mucipal together with Mallow on a 4 seat/5 seat basis a move which is not necessarily negative as it fits in with National Boundary of Cork North West.

However I hope that you will consider My submission favourably when looking at these 3 Parishes collectively whatever your decision to ensure continued effective Local Representation.

Thanking you,

Clr Ian Doyle.
